

ADEL

Association
for Development, Education and Labour

the main reasons, why ADEL was established...

our AIM and GOALS

We are organization, which creates opportunities for young people who would like to be an active, try and learn something new and gain some experience and knowledge for personal and professional development. We want to enrich the educational, social and cultural life of young people living in our country, mainly young people with fewer opportunities and coming from Eastern Slovakia.

- increase employment of young people and to support their personal and professional development

- encourage active participation, voluntary and civic initiatives

- to encourage the responsible attitude to the nature and protect the environment

- support integration of minorities and refugees into the society

- promote a healthy lifestyle

- stimulate creation of new and innovative ideas and support young people towards their own business

- contribute to rural development

● through various youth exchanges, trainings, workshops, events, volunteering programs...

Motto of ADEL is:

***Youth is not just a temporary state on the way to adulthood,
but the space for our own journey, opinions and solutions -
and we want to fill in this lack of space!***
